HAVOC OF A HURRICANE.

Only fragmentary reports have yet reached the seat of government at Nassau, Bahamas, as to the damage done to the outlying islands of the dependency which were ravaged by a hurricane from the 11th to the 14th inst., but such news as has arrived is sufficiently bad. The storm appears to have originated near Turks Island, and swept with ever-increasing fury up the long string of islands running southeast from there, Inagua, Acklins, Crooked, Ragged, Long, Fortune, Watlings, Rum Cay, Exuma and the south part of Andros Islands all appear to have suffered. On Long Island the gale blew for two days, and the settlements are practically obliterated from end to end, the principal place, Clarence Town, having only five houses left standing. The inhabitants were forced to find shelter in caves, and food and water are almost unprocurable.

There is no doubt that the loss of life is heavy. The whole countryside, even so far as Cat Island, is scalded and burnt as if with fire from the terrible driving of the salt water across the land.

The government has taken relief measures, and schooners are being daily dispatched laden with foodstuffs, lumber and nails. The recent gale is said to have exceeded in fury the hurricane of 1866, which has always been the standard of comparison.

A FIENDISH ATTACK?

The New York police headquarters is puzzled over the declaration of Mrs. Sarah Sample, an aged and well-to-do widow, of the fiendish attack of two women and a man who she says on Saturday overpowered her in her home, gagged her, and stripping her, smeared her whole body with carbolic acid. Mrs. Sample yesterday told the story of a blackmail plot which, she declares, has to do with the assault. Mrs. Sample says she let the upper floors of her house to two families and later one of the men found her in an embarrassing situation with her other tenant, and to save her good name she "gave up" first $70, then $500 and again $500. Tired of being blackmailed, she told her story to Lawyer Owen Finnerty, who procured a summons against the man accused, but owing to the peculiarities of Mrs. Sample's story, the police hesitate to make an arrest. Mrs. Sample's experience with the acid bath occurred Saturday. When, in answer to her screams, a policeman broke in the door of her flat, he found her stripped, with a paper of red peper in her mouth and a bottle with a mixture of red pepper, water and carbolic acid along side her. The woman was not severely injured and as the neighbors below declare they heard no sound of a struggle and saw no one ascend to the Sample flat, the police are non plussed.

Best Treatment for a Burn.

If for no other reason, Chamberlain's Salve should be kept in every household on account of its great value in the treatment of burns. It allays the pain almost instantly, and unless the injury is a severe one, heals the parts without leaving a scar. This salve is also unequaled for chapped hands, sore nipples and diseases of the skin. Price, 25 cents. For sale by W. F. Creighton & Co. and Richard Gibson.

BALLOON BURSTS A MILE HIGH.

Captain von Abercron and Lieutenant von Coltzheim, two well-known aeronauts, had a miraculous escape from death yesterday afternoon during the course of an ascent in a spherical balloon at Dusseldorf, Rhenish Prussia, Germany. Thousands of spectators had gathered to witness the ascent, and they were horror stricken at the accident, which occurred high in the air.

On being released from its fastenings the balloon soared almost directly upward to an altitude of 6,000 feet, when the envelope suddenly ripped open. The gas escaped in streams and the balloon shot downward. The aeronauts swiftly clambered into the network in the desperate hope of avoiding the shock of contact with the ground.

After a fall of 2,000 feet, however, the envelope spread out, seemingly in a purely accidental manner, forming a sort of parachute, which checked the descent. The balloon then gradually came down, taking an hour and a half to reach the earth, the two men clinging to the ropes and the basket. They suffered no injury except a few scratches.

The cause of the accident was the sudden expansion of the gas.

SHOOTING AT A CHURCH.

One of the bloodiest affairs in the history of East Tennessee occurred near the Tennessee-Kentucky line north of Anthras Postoffice Sunday. The scene was a little Baptist church, within 50 yards of where a "blind tiger" has operated for months. The services had closed and nearly all the congregation had emerged from the church, when a crowd of drunken men who had visited the "blind tiger" began firing into the worshipers with pistols. John Bennett, J. W. McKinney and Edward Thomas were shot down at the church door and died almost instantly. The preacher, Mr. Kind, was mortally wounded.

Another worshiper named Gibson was also shot down in front of the church, but is not mortally wounded. Anthras is five miles from a railroad and has no telephone connection. Jellico officers could not learn the names of any of the men implicated in the shooting.

All of the dead and wounded were men of families except Bennett.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER

TUESDAY EVENING, SEPT. 29, 1908.

THE rain of yesterday and last night was as welcome in certain sections of the country as was that in the days of Ahab The breaking of the prolonged drought throughout the country occasioned rejoicing and relieved distress in some quarters. The rains now prevailing in the territory east of the Mississippi river started in the far West several days ago. While they have not been of sufficient volume to have any marked effect on the disastrous forest and brush fires which have been sweeping hundred of thousands of acres, or on water courses which have fallen to the lowest points in many years, the prospect of heavier and continued rains throughout the east is held out by the weather forecasters. If these expectations are realized the work of the fire fighters will be relieved; the wheels of many factories which ceased to turn because of lack of water power will again become active, and farmers, for the first time in many weeks, will be assured adequate supplies of water for their livestock. The fall in the temperature has been almost phenomenal. Snow appeared in Kansas City, and the mercury was near the freezing point in St Paul, Minn. Frost was seen in certain sections of the south. A hurricane in the West Indies is said to be moving northwest.

MR. HENRY WATTERSON has trained his rhetorical guns on the Hearst-Foraker-Roosevelt imbroglio, and in a letter to the Evening Telegram in New York yesterday virtually charges that every republican senator—with the exception of Allison—is of the same calibre as Foraker. He says, in part:

The Senate is crowded with trust attorneys. It long ago became a scandal that most republican leaders who went to Congress poor men after a few years came away bloated bondholders, Allison, of Iowa, being the single exception. It is too late for the republicans to make a scapegoat of Foraker. The Hearst-Foraker-Archbold incident is an object lesson of tremendous reach. The purchase of the stolen letters, the shameless use of these, their damaging disclosures, make a darksome picture, and yet, on the other hand, this picture is hardly more depressing and discouraging than the exhibition of rank hypocrisy and cant which the revelations have occasioned in that holy of holies, the armed camp of Roosevelt, Taft and Hughes, virtue-mongers in ordinary and manufacturers of tinplate god and morality.

IN ALL his public career President Roosevelt never within 24 hours received so much unwelcome publicity as he got in Saturday's newspapers. Four articles irritated him; namely, the Foraker letter, the assertion that Postmaster Denham is holding office at Clarksburg, W. Va., because he has a letter from Chairman Hitchcock directing him, in violation of the civil service law, to get an indorsement for Taft from the West Virginia State central committee, that he overruled Ethan Allen Hitchcock and compelled the former secretary of the interior to issue a permit to the Prairie Oil and Gas Company; that A. I. Vory, Taft's personal representative, was disbarred from practice before the Pension Office for nearly 16 years on account of an act forbidden by a statute that prescribes two years in the penitentiary as one of the possible punishments for its violation. If the president were to keep quiet possibly some other people might do likewise.

THE Oklahoma democrats are standing by Gov. Haskell. They believe in him and are ready to stand by him at all hazards. In an interview he says: "I'll have a new chapter on Theodore the First every day between now and election day, showing him to be the greatest crook that ever sat in the presidential chair." Mr. Roosevelt by his unseemly acts has brought such criticism upon himself.

A NEW YORK manufacturer, writing to the Philadelphia Record, insists that the remedy for the slump in the textile industries is to cut down wages. To this the Record replied, "But many farsighted manufacturers and thousands of men out of work are agreed that a better remedy is to cut down the tariff. By that process we can widen our markets, cheapen our living and start the wheels."

IT seems that Standard Oil money was easy to get by any one of political influence in either party. The oil company, says the Philadelphia Record, was as generous and non-partisan as the Erie was when Jay Gould said it helped republicans in republican districts and democrats in democratic districts, but always Erie men.

FOUR weeks ago the odds on the presidential election were greatly in Taft's favor. Today, notwithstanding the four effusions from the White House, Bryan seems to be the favorite. If Mr. Roosevelt keeps on writing letters his proxy will be badly beaten.

E. H. Harriman is undergoing treatment by a Boston surgeon for a stiff spine, incident to his advancing years.

CHAIRMAN HITCHCOCK'S figures just given out concede republican losses in all States. He therefor places Taft's chances for election in doubt.

From Washington.

Washington, Sept. 29.

No disturbing advices, it is claimed, have reached the White House from the far west as to the prospects of party success in the national and congressional campaign. Conditions in the middle west, however, are considered worthy of attention. The national ticket, it is said, is in no danger, according to advices which have reached Mr. Roosevelt, but fears are being felt for the safety of the next House. The president feels that the election of a republican president and the placing of control of the House in the hands of the enemy might be taken as a criticism of the Roosevelt administration and would defeat the carrying out of the policies which he has been pushing, and to which the party is pledged. There is no doubt that the president contemplates injecting more fireworks into the congressional campaign. It is upon his devotion to this cause, it is said today, that he will base his decision for taking the stump if he should alter his present plans. His resolution to remain in Washington has been severely shaken by events of the past week. A high authority in speaking today for the president on this subject said: "The president has no present intention of going on the stump. It is, however, impossible to predict what the future may develop. That is as far as I can go, unless I add that the president is fully determined to exercise every possible agency in aiding the election of a republican president and a republican congress." Maryland leaders are calling for help. Representative Pearre has been here to talk with the president several times in the last few days. He has pointed out the desirability of having some "big guns" visit the smaller cities of the state. Although several prominent speakers are down for Baltimore and are scheduled to deliver talks throughout Maryland, it is pointed out by the state leaders that it is worth while to arrange for longer speeches and a fair discussion of the issues.

W. L. Capps, chief constructor of the navy, returned to Washington today from Buzzards bay, where he has been directing operations of salvage work on the cruiser Yankee, which for a week has been on the rocks near the Hen and Chickens lightship. Mr. Capps reported to Secretary Metcalf that although the vessel is in a perilous position, she should be saved without further damage to her, unless she should be struck by a storm.

Today the International Congress on Tuberculosis is working in sections discussing various problems looking to the ultimate conquering of the "white plague." One of the principal addresses of the day was that of Dr. A. B Melvin, chief of the bureau of animal industry, of the Department of Agriculture. He estimated the aggregate annual loss in the live stock industry because of tuberculosis among farm animals at $14,000,000. Dr. Melvin proposed certain measures for the control and eradication of the disease among animals. "As the eradication of tuberculosis is largely a public health measure," Dr. Melvin said in conclusion, "it is only reasonable that the persons whose cattle are slaughtered should be paid indemnity, at least in part. This is not only just but is absolutely essential, if the co-operation of cattle owners is to be secured. Several states already have provisions of this character."

A letter addressed to the president by John H. Marble, attorney for the Interstate Commerce Commission, giving a record of prosecutions for rebating, was made public at the White House today. Mr. Marble says that in the letter sent by the president to Mr. Bryan, that portion dealing with rebate prosecutions did not include the work done during the year 1908. "The showing made by you is, therefore," he says, "even less impressive than present facts would warrant." The letter gives a list of railroads against which indictments have been brought during the present year, and those which have been convicted are giving rebates.

The cases of William F. Stewart and Capt Samuel D. McAllister, both of the Coast Artillery, who had been ordered before a retiring board of examination as to their physical disability will be taken up by the Hall board at the army general hospital at 2 o'clock today. Today's procedure will be confined to the medical examination of each officer only. This will require not more than hour or two, after which the board will adjourn until 10 o'clock tomorrow morning, in order to give the medical officer time to fully diagnose the result of their examination and make their report. The nature of the real fight to be made by the officers and the board will depend upon this report. The cases will be taken up separately, and it is possible that Captain McAllister will be disposed of first. It is calculated that his case will require but brief attention, and a little further time is desired on both sides in the Stewart case in order for better preparation. Upon their report, taken in conjunction with the report of the surgeon at Fort Huachuca, who decided that Col. Stewart was unable to stand the strain of the 90-mile horse back test, will largely depend the judgment of the board, as to whether he should be retired from the army. Col. Stewart will be permitted to introduce as evidence his general health record which is understood to be exceptionally good for an officer of his age. He will also endeavor to show that if his heart has become affected, as charged, it is the result of his life at Fort Grant, Ariz., where he was sent last year, by order of the president.

Secretary of War Wright approved today the application of the Wright brothers, made to the War Department by Miss Katherine Wright, their sister, for an extension of time in which to qualify their aeroplane for acceptance by the government. By the extension, they have until June 28, next.

Today's cabinet meeting lasted two hours and among the subjects discussed were those of the Standard Oil $29 000,000 case at Chicago; whether the battleship fleet will end its tour of the globe at Hampton Roads or New York harbor; the internal revenue collectorship in West Virginia, and the political situation generally. Chancellor Day of the Syracuse University came in for a running fire of comment before the Cabinet meeting broke up. Assistant Secretary of State Bacon informed the Cabinet that Secretary Root would return to Washington Wednesday evening.

At Cleveland today the Cleveland baseball club defeated Philadelphia by a score of 5 to 4.

News of the Day.

United States Senator Rayner predicts that Maryland will go for Bryan.

The Taft supporters are alarmed at the effect of Roosevelt's utterance, and fear he is crowding the candidates out of the limelight.

The first big bet with Chandler a favorite over Hughes for the coming election was made at the Waldorf-Astoria in New York yesterday.

Mr. Bryan, who spent yesterday campaigning in South Dakota, said he would soon answer the new points in President Roosevelt's letter.

Herman Ridder, the new democratic national treasurer, announced that on October 15 he would publish the full list of contributors of the Bryan campaign.

Of the 22 reigning dynasties that compose the Federation of States, forming the German Empire, no fewer than 11 are threatened with extinction, the male line of succession being sparsely represented.

Joseph Wheelock, the veteran actor, died of heart disease at Highlands of Navesink, N. Y., yesterday as he was about to take a train for New York. Mr. Wheelock was about 65 years old.

The wind which accompanied the heavy rain in Washington county, Md., yesterday destroyed orchards, uprooted trees, blew down fences and in one instance carried away a summer kitchen from its foundation.

The forest fires that have been raging in the foothills of the Adirondacks for several weeks were extinguished yesterday by heavy rains. The rain began falling about noon and at 6 o'clock the fighters were withdrawn.

Angered because of his wife's refusal to tell him where she had been, Richard Reed, of 9 Huntoon place southwest, Washington, last night, it is alleged, struck her on the head with a heavy chair, inflicting a severe scalp wound.

A city railway car got beyond control on Mozart Hill, at Wheeling, W. Va., yesterday dashed down the heavy grade, left the rail at a sharp curve and crashed into a house and telegraph pole. One person was killed and six others injured.

W. A. Winburn, vice-president of the Central of Georgia Railroad, at the rate hearing before the Interstate Commerce Commission at Atlanta, Ga., said: "We must get more revenue or make material reduction in the wages of our employees."

A few minutes after the performance of Robbins' Circus at Woodstock yesterday a severe wind and rainstorm blew the tent down, doing considerable damage. No one was injured. The rain broke a drought that has lasted for more than a month.

In his address before the Tuberculosis Congress at the formal opening in Washington yesterday, Dr. Robert Koch, the famous German scientist who startled the world when he discovered the tubercle germ, declared that preventive measures in his country have made a great inroad on the disease and in Prussia its spread has been checked.

Robert Knight, 11 years old, by coming in contact with the iron fence surrounding the Mound street school grounds at Columbus, O., yesterday just before school time, was killed and four of his companions, including his brother, Joseph Knight, were injured. The death and injuries were caused by a high voltage electric light wire, which had been blown down by the storm and lay across the fence, charging it.

Intense excitement prevailed in and near Arvonia yesterday over the waylaying and shooting of H. M. Gregory by unknown parties late Saturday night. Gregory was returning from an estate, which he had just purchased, to his home, Seven Islands, in the James river. It is the belief of Gregory's friends that he was the victim of the noted Thomas-Zimmerman band of outlaws, and a posse of from 50 to 100 men has been organized to capture the desperadoes dead or alive.

The German bark Brema, tobacco and lumber laden, from New Orleans to Bremen, recently disabled at sea and towed into Hampton Roads by the British steamship Lord Iveagh, was yesterday libeled in the Federal Court at Norfolk by the master of the Lord Iveagh for a claim of $240,000, 60 per cent. of the value of the vessel and her cargo. The Brema is valued at $20,000 and her cargo at $360,000.

The British steamship Ursulee Bright, from Santiago de Cuba for Philadelphia, on September 10, iron ore laden, in command of Captain Goode, and the bark Auburndale, which sailed from Turks Island two months ago for Philadelphia, have been given up for lost. The former vessel, beyond a doubt, foundered on September 12, near the Bahamas. Twenty-eight men are missing. The Auburndale had a crew of 12. The latter vessel is thought to have been sunk by a collision.

BANKERS' CONVENTION.

William J. Bryan's proposed guarantee of bank deposits will be thoroughly discussed at the meeting of the annual convention of the American Bankers' Association, which meets formally at Denver on Wednesday and which will be attended by 4,000 bankers from all parts of the country. Besides the bank guarantee plan, the Aldrich currency bill and a proposition to prevent express companies selling money orders will be the chief topics discussed. Preliminary sessions of two of the many sections began yesterday. The savings bank sections yesterday adopted resolutions condemning both the federal guarantee of bank deposits and the postal savings bank bill that was introduced in Congress last winter. While the action of the savings bank section has no bearing upon the final vote of the convention proper on the deposit guarantee scheme, it can be taken as an indication of the sentiment that prevails among bankers of all classes.

Virginia News.

The long drought throughout this state was broken by a heavy rain fall yesterday.

A reunion of the survivors of Mosby's men, including the 43d battalion, Virginia Cavalry, will be held at Hamilton, tomorrow.

The Southern Railway Company was named defendant in a suit filed in the District Supreme Court, Washington, yesterday by George C. Staubus, a railroad postal clerk. He alleges he was seriously injured in a wreck which occurred near Danville on July 41st, and asks $5,000 damages.

The remains of Howard Page, aged seventeen years, a resident of Big Island, were found Saturday afternoon in a culvert alongside the Southern Railway, near the Orange bridge, near Lynchburg, the youth having been killed by a fall, in which he sustained a broken neck and a fractured skull. He fell about twelve feet, evidently having been tripped by wires used in connection with railway signals.

Wild excitement was created on several streets in the heart of Norfolk between 6 and 7 o'clock yesterday morning by an attack upon three women by James Chappell and the subsequent flight of the negro. Men going to their work on Brewer street were attracted by screams for help from Mrs. Chronester, whom the negro had caught, choked, knocked down and kicked.

Harry Coffee, of Forks of Buffalo, Amherst county, was robbed Saturday night near the union passenger station at Lynchburg, of $41 by a sharper, who is evidently following the fair. The stranger accosted the countryman and felt the muscles of his legs, and then offered to wrestle with him. Coffee wrestled, was thrown, and when the stranger was gone he discovered his loss.

John Ashby Mullen, who on July 28 killed Elijah Cole, a merchant of Petersburg, while he was asleep in the bed chamber of Mullen's house, was tried in the corporation court yesterday. Mullen killed Cole with an axe, splitting his skull open. His defense was the unwritten law. Mullen's wife was not allowed to testify and as she was the only witness to the murder the most damaging testimony against Mullen was kept from being presented to the jury. The case was given to the jury at six o'clock and after four hours' deliberation the members reported to the court that they could not agree. They were discharged.

BANK EXAMINERS.

The report of the conference of the eastern national bank examiners, which was in session in Washington last week, was yesterday filled with Comptroller Murray. It contains practical suggestions which will be put in force at once by the comptroller, and incorporated in the new book of instructions to National Bank examiners now in preparation.

The comptroller says: "As the government supervises examiners and national banks, the examinations ought to be well done, or else not done at all. It is ridiculous to send a man to examine a bank, who knows nothing of credits and accounts. An examiner ought to be as good a banker, as good a business man, as good a judge of credit, and as good an accountant as the officers of the banks which he examines. Only such men will be appointed examiners while I am comptroller."

HOSPITAL DOCTORS STRIKE.

Dr. I. W. McDowell, of Broadway; Dr. J. W. Stephenson, of Petersburg; Dr. E. C. Register, of Georgetown, S. C.; Dr. W. R. Wallace, of Chester, S. C., and Dr. L. D. Walker, of Cedar Key, Fla., internes at the Memorial Hospital, Richmond, have resigned because of the discharge of Dr. P. S. Epperson, who was accused of flagrant violation of the rules of the hospital, prohibiting social relations with the pretty nurses. All of the young men claim they are equally as guilty as Dr. Epperson. Their resignations have been accepted, although, it is stated, they may be given an opportunity to reconsider their action.

All that has been given out of the affair is that Dr. Epperson refused to resign at the request of the committee and that immediately thereafter a hearing was held and his resignation demanded. The other resignations followed as soon as it became known that Dr. Epperson had been dismissed.

We miss thee from our home, dear,
We miss thee from thy place.
A shadow o'er our life is cast,
We miss the sunshine of thy face.
We miss thy kind and willing hand,
Thy fond and earnest care.
Our home is dark without thee—
We miss thee everywhere.

By her loving FATHER AND MOTHER.

In loving remembrance of ISABELLA M. BUTTS, beloved wife of L. E. Butts, who departed this life two years ago today.

Farewell, dear, but not forever,
There will be a glorious dawn;
We shall meet to part, no, never,
On the resurrection morn.
Tho' thy darling form lies sleeping
In the cold and silent tomb,
Thou shalt have a glorious waking
When the blessed Lord doth come.

A devoted wife and a loving mother.

By her loving HUSBAND AND LITTLE SON.

Today's Telegraphic News

Thousands Drowned.

Bombay, Sept. 29.—Thousands have been drowned, towns wiped out, an area many miles in extent turned into an inland sea and the bodies of flood victims found lodged in the branches of trees and lining the banks of the terribly swollen streams, as the result of a flood that is now ravaging the Deccan region.

Advices from Haidrabad today say the situation is the most serious known for many years.

The inundated region is one of the most densely populated in all India, and the deluge came with such suddenness that it was impossible for thousands to reach points of safety.

The Musi and other rivers rose 75 feet in a short time and carried unprecedented destruction throughout the entire region.

The frail houses, common in this region, were swept away like chips and whole towns were practically obliterated in the mad rush of the waters.

Communication has been interrupted with the afflicted section, preventing the immediate sending of relief and definite information.

Turkey and Bulgaria.

Constantinople, Sept. 29.—An ultimate declaration of war of Turkey against Bulgaria was clearly indicated today by the sultan's refusal to accept the resignation of the grand vizier. The latter tendered his resignation because the sultan was temporizing in the dispute with Bulgaria over the seizure of the Turkish Oriental Railway. The refusal to accept the resignation is believed to foreshadow the sultan's adoption of the grand vizier's advice and a movement against Bulgaria.

Turkey's indecision results from her suspicion of the attitude of Russia, Germany and Austria-Hungary. Despite the protests of these countries against Bulgaria's conduct, the sultan is convinced that in the event of conflict these powers would aid Bulgaria. In her dilemma Turkey has turned to England, and today the Porte informed British Ambassador Lowther of its willingness to submit the Bulgarian tangle to The Hague tribunal.

Hearst to Attack Taggart.

Chicago, Sept. 29.—Thomas Taggart, former chairman of the democratic national committee, and now a member of the executive committee, is to be the target of William R. Hearst's next attack, according to rumors that were afloat after the New York editor left for the west today, having admitted that he was about to spring a new bundle of correspondence in his speech in Salt Lake City. Taggart has been casually referred to by Hearst in former speeches, and two years ago he was made the subject of Hearst's attacks. It is understood that Hearst will go into the French Lick Springs gambling charges, that he will dig up a few unwritten chapters of the history of the administration of Taggart when he was mayor of Indianapolis and that he will have a good deal to say about the conduct of the democratic campaign four years ago.

Stone Hurled at Prince.

Budapest, Sept. 29.—Police authorities throughout Roumania are today searching for the perpetrator of an attempted assassination of Prince Charles of Roumania, as he traveled yesterday from Dava to Tsum. A ten-pound stone was hurled violently through the car window near which the prince sat. He escaped injury, but two passengers who were near him were injured by flying pieces of glass. The train was stopped and a search for the would-be assassin begun, but no trace of him could be found. The prince was undisturbed by the affair and within a short time he resumed his journey.

Work of an Incendiary.

Erie, Pa., Sept. 29.—Balked in his first, attempt an incendiary's second effort to burn the big Mayer building here proved successful. Today it is a mass of ruins, causing a loss of $350,000. Last evening one of the tenants of the building discovered fire on the fourth floor and quenched the flames before great damage had been done. Early today another blaze started. This time the firebug's efforts were aided by a high wind and the big building was a mass of flames before the firemen could get into action.

Bryan to Attack Sheldon.

New York, Sept. 29.—George R. Sheldon, republican national campaign treasurer, is to be made the object of a broadside attack by the democratic party. In a series of speeches Mr. Bryan will attempt to show that "the system," through Mr. Sheldon, is backing the Taft campaign. Chairman Mack declared at democratic headquarters today that information regarding Sheldon's Wall street affiliations has been gathered and is being compiled to furnish the basis of Mr. Bryan's addresses. It is expected that Mr. Bryan will open the attack within a few days.

The Cholera in Russia.

St. Petersburg, Sept. 29.—An appreciable decrease in the number of cholera cases has been followed today by just what the health authorities feared; a relaxation on the part of the police and government officials in their welfare on the disease. The decrease is largely due to colder weather and frosts rather than to the efforts at cleaning up the city There were approximately 200 new cases reported up to noon today. The disease continues to attack the aristocratic quarters of the city, the Baroness von Muller being one of the new victims.

Fred Block, a well-known American mining man, who has lived in Mexico for several years, was passing through a wild part of Guerreo, Mex., on his way to his mine when he was attacked by a man-eating tiger and seriously injured. His Mexican servant shot and killed the beast.

A POPULAR LAMENT.

Where Would Society Be If One Was Judged For The Sins Of Others?

"O, I tried one of those hair tonics sometime ago and it never did me a bit of good."

That's what many people are saying today when they refuse Herpicide a trial.

It would be as sensible to say "I never travel on a railroad because I often see collisions mentioned in the papers."

Newbro's Herpicide is specially made to destroy the germ that is living on the roots of your hair.

That is why it is so exceedingly efficacious—it is there for the sole purpose of ridding the hair of this parasitic growth, after which the hair grows as nature intended.

Sold by Ernest L. Allen & Co., agents. Two sizes 50c and $1.00. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. 99

Chas. P Taft and Standard Oil.

Cleveland, O., Sept. 29.—A $75,000,000 Columbia Gas combine was injected into the national campaign today, when Lawyer H. H. Johnson, of Cleveland, sent a letter about it to Wm. H. Taft. Johnson tells the candidate of the suit against the Columbia combine which Johnson filed for a client. In this suit, he tells Taft, he accused Charles P. Taft of Cincinnati and "certain gentlemen associated with him, representing Standard Oil interests," of having promoted a combination of all the gas light companies of Cincinnati and Cleveland with the idea of preventing competition. Johnson in his suit charged violation of the Valentine anti-trust law, and that he had proof of the charge. Johnson says in his letter that he then went to Attorney General Wade Ellis and asked him to bring quo warranto proceedings against C. P. Taft and the other combiners. This the attorney general refused to do. Johnson calls attention to the fact that Ellis was the choice to write the republican national platform and has since been selected as an assistant attorney general. He asks Taft this question: "Since your brother is so closely affiliated with the Standard Oil, will you, if elected president, prosecute the Standard Oil interests?"

Steamer Damaged by Storm.

New York, Sept. 28.—With her after funnel gone and her superstructure battered and scarred by heavy seas, the Panama Railroad steamer Colon arrived here today from Cristobal after an encountered with the recent terrific West Indian hurricane. Two deaths were reported Wm. Lilley, assistant engineer and J. Olsen, ship carpenter, who went into the hold during the storm to repair the fresh water tank and were killed by fumes of cynaide of potasium. The officers of the Colon report that the wind attained a velocity of more than 100 miles an hour and that the seas were tremendous, sweeping the upper decks again and again. The panic stricken passengers were with difficulty controlled by the officers. The steamer finally reached Colon on September 18, after a voyage from New York of eight days.

Haskell to Sue Roosevelt.

Guthrie, Okla., Sept. 29.—"Theodore Roosevelt, you are hereby served in a suit for damage by Charles N. Haskell, of Oklahoma," is, according to Haskell's friends here today, the experience awaiting the president when his term of office expires, should the governor of the newest state not be able to serve the chief executive while still in office. That Haskell is determined to sue the president for damages as a result of his adoption of Hearst's charges, all his friends insist. He is eager to begin action at once, but should his lawyers decide that he may not do so, it is intimated that the suit will be withheld until next March and Mr. Roosevelt served when he leaves the White House.

The New Democratic Treasurer.

New York, Sept. 29.—"Chair warmers, political leeches" in the campaign headquarters of the democratic national committee will lose their official heads, according to a statement of Hermann Bidder, newly appointed treasurer of the national committee. "I do not wish to criticise the Haskell regime, but I wish to emphasize the fact, as I step into office, that persons who have heretofore been decorating chairs and holding honorary positions in the eastern and western headquarters, will lose their snap jobs during the present week." "The democratic treasury fund is sufficient for present purposes," continued Mr. Ridder "but if we have not the money to spend, rest assured this campaign will close with no deficit in the war chests, such as occurred at the end of Tom Taggart's reign." "By curtailing outlandish expenses as have incurred during the past month, we can hope to break even."

Spread of Prohibition.

Albany, N. Y., Sept. 29.—With the betting on Hughes and Chanler in the New York governship race about even today, a new element, the brewers' organization, is preparing to enter the situation and may exert a formidable influence. Alarmed at the spread of the prohibition situation both candidates very likely state their positions on local option and on their replies their political support will depend. Neither Governor Hughes nor Lieut. Gov. Chanler have so far expressed themselves on the local option proposition, and it is considered doubtful that either will. Towns in New York state now have local option and for several years the anti-saloon league has sought to have the measure extended to the cities. A bill to that end was introduced last winter but it was killed easily. The brewers spent $11,000 to defeat it.

The Stranded Cruiser Yankee.

Newport, R. I., Sept. 29.—Pounded by huge waves rolled up by a northeast storm, the stranded cruiser Yankee today was deserted by all the crew who have been striving to get her off Hen and Chicken reef. She may break into at any hour. Wireless communication with the Yankee failed soon before she was deserted. Every part of the vessel is flooded except the engine and boiler rooms. [The Yankee was at this port for several days this summer.]

Woman Shot.

Lorraine, O., Sept. 29.—Shot down while taking corn from the garden of a prosperious citizen to feed her hungry children, Mrs. Patrick O'Keefe lies in the hospital here in a serious condition. Mrs. O'Keefe is the mother of six children. Her husband has been out of work for months and she has had to earn bread for the family. Work having failed, she says, she was driven to take a few ears of corn to supply the family larder.

The "Red Special"

Toledo, O., Sept. 29.—The socialist "red special," carrying Eugene V. Debs, socialist candidate for president, and party, left Toledo today. The first stop made was in Bowling Green, the next at Findlay. The "red special" is scheduled to arrive in Cleveland at 4 p. m. and the candidate will speak there tonight. At Toledo and at all points Mr. Debs was greeted by the largest and the most enthusiastic crowds that ever turned out to hear a socialist speaker.

District Attorney Jerome has been appealed to be the New York Times to set in motion the machinery of his office in order to obtain from F. S. Hastings, executor of Grover Cleveland's estate, the evidence which he claims to have proving the "Cleveland article" published by the Times over the signature of Mr. Cleveland, prophesying Taft's election to be an imposture.

A committee representing the switchmen employed on the Lackawanna railroad between Buffalo and New York will wait upon T. E. Clarke, general superintendent at Scranton, Pa., this afternoon to inform him that unless the men who have been discharged at Buffalo for frequenting saloons, are reinstated a strike will be called over the whole system.

Governor Haskell, of Oklahoma, announced last night that he would sue William Randolph Hearst, "to make him prove the charges he made against me were not true." According to Haskell an investigation is being made to locate all others who are responsible with Hearst for the charges in order to make them defendants also. He specifies Dennis T. Flynn, republican nominee for United States senator in the present campaign, as being responsible for the fight made on him.

THE HENRY STREET CASE.

By designation of the governor Judge Thomas W. Harrison, of Winchester, presided in the Circuit Court for this city today, when the injunction proceedings involving the right of the Washington-Southern Railway Company to maintain its tracks in Henry street, Alexandria, was argued. Judge Harrison sits in the place of Judge Thornton, who, when the proceedings were instituted, was an attorney for the Southern Railway Company. The litigation grows out of the partial abandonment of Henry street for railway purposes after the completion of the union station, which is in Fairfax county, beyond the corporate limits of Alexandria. On complaint of owners of property on Henry street the City Council passed an ordinance requiring the railway company to remove its tracks, authorizing the city engineer to do the work if the company failed to obey. The railway obtained an injunction restraining the City Council from carrying out the provisions of the ordinance and the City Council sought to have this injunction dissolved. After the railroad company had secured the injunction the City Council refused to employ additional counsel to assist the city attorney in the case. Today the city was represented by City Attorney Fisher and the railroad company by Col. F. L Smith. As the repairs to the court room have not yet been finished, the case was held in the rooms over Col. Smith's office on Royal street. There were but few spectators present.

After hearing the arguments Judge Harrison took the matter under advisement until tomorrow.

CHANGE IN THE WEATHER.

The temperature this morning was in marked contrast to that of yesterday when conditions were sultry and uncomfortable. There were heavy rains during the day, and at intervals the sun would break through the clouds when his rays for a time were as depressing as those in the summer months. Early in the night the wind, which had been blowing from the southeast, veered to the northwest and a tempest followed. The rain fell in torrents and in a few minutes' time the streets were flooded and the sewers taxed to their fullest capacity. Sharp lightning and heavy crashes of thunder accompanied the storm, and in some sections of the city there was apprehension, as a report had been circulated to the effect that a bulletin from the Weather Bureau announced the approach of a West India hurricane which was scheduled to reach Alexandria about midnight. This coupled with the fact that the anniversary of the tornado of 1896 was but 24 hours off added to the apprehension. There was, however, no further meteorological convulsions during the night. The temperature continued to fall and before daybreak conditions were chilly. The mercury in the thermometer at 7 o'clock this morning stood at 52°, and the weather has been bright and bracing today. The Bryan, Kern and Carlin banner in front of the headquarters of the democratic club on King street was damaged by the high wind and rain.

POLICE COURT.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

John Gray, charged with drawing a pistol on Walter Meekins, had his case postponed.

George Johnson, colored, charged with disorderly conduct, was dismissed.

It will be located in the picturesque grove just back of and within a few hundred yards of the fine mansion of W. B. Hibbs, a Washington banker. Expert landscape gardners will be employed to lay out and arrange the grounds so as to produce the most pleasing effect on this naturally ideal location. CHANCELLOR DAY ATTACKS ROOSEVELT.

That the Standard Oil Company remains under the venomous hatred of President Roosevelt for reasons best known on the inside, while the Steel Corporation, the greatest trust in America, receives his approbation and consent to increase its holdings, was the statement of Chancellor Day, of Syracuse University, New York, in an interview yesterday.

The chancellor charges that not only did Roosevelt, when a candidate for president four years ago, hobnob with trust magnates and urge them to secure money to elect him, but that after his election he appointed to a position in his Cabinet a man who held at the time a retaining fee from a large corporation, that man being still a member of the Cabinet.

The chancellor defends Senator Foraker in his dealings with John D. Archbold, of the Standard Oil Company, while Mr. Taft, the republican nominee for the presidency, is referred to as "the presidential appointee" of Roosevelt. He also says the little postmasters were put out for political activity, while the executive runs the campaign.

Kennedy's Laxative Cough Syrup is especially recommended for children. It tastes nearly as good as maple sugar. Sold by W. F. Creighton & Co.

BOOKER WASHINGTON AT HIS BIRTHPLACE.

For the first time in forty-one years Booker T. Washington, on Saturday, visited his former home and birthplace at Hales Fork, in Franklin county, fifteen miles from Roanoke. Washington left his boyhood home when he was just eight years of age. Since that time he has never visited Franklin county.

Washington was born on the plantation of Jas. Burroughs, his mother being a slave in the Burroughs family. Washington's father was Benjamin Ferguson, a white farmer, who resided near by.

When asked if he knew who his father was, Washington replied without hesitation that he had heard that his name was Ferguson. Mrs. W. J. Goggin, wife of a Bedford county farmer, formerly Miss Ellen Burroughs, daughter of the owner of Washington, met and greeted Washington on the streets of Roanoke. Mrs Goggin says she taught Booker his a, b, c's. She also states that Ferguson was the father of Booker.

TUESDAY EVENING, SEPT. 29, 1908

THIRTEEN CHURCHES BURNED.

There is a reign of terror among the negro inhabitants of a considerable portion of Calhoun, Baker and Miller counties Georgia, as the result of a raid by night riders Saturday night at the trail of the outlaws being marked by the blackened ruins of thirteen negro churches and schoolhouses.

The following buildings were destroyed: Mount Zion Church and schoolhouse, Pleasant Hill Church and schoolhouse, Christ Church and schoolhouse, Little Zion Church and schoolhouse, Belmont Church, Mount Aetna Church and schoolhouse, New Salem Church and schoolhouse.

The night riders first made their appearance at a point three miles east of Kestler, where the first church was fired. They galloped away toward the east, and before the glare of the first fire had reached its height, another was being kindled a few miles away. Fire followed fire, and the destruction of every building to which the torch was applied was complete.

Many of the best members of the negro race in the three counties named are members of the congregations of some of the burned churches.

This is the same community where a few months ago a number of negro lodge rooms were dynamited, and where several lynchings have recently occurred.

A Traveling Man's Experience.

"I must tell you my experience on an east bound O. R. & N. R. R. train from Pendleton to Le Grande, Ore., writes Sam A. Garber, a well known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic; her hands and arms were drawn up so you could not straighten them, and with a death-like look on her face. Two or three ladies were working with her and giving her whisky. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarroea Remedy (I never travel without it), ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into Le Grande, where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into Le Grande she was all right, and I received the thanks of every passenger in the car." For sale by W. F. Creighton & Co., and Richard Gibson.

We Lead—Others Follow

There are few, if any, of the people who do not want the best goods for the least money. Taking this statement for a fact and believing it to be true—a further truth presents itself, that of ability to pay high prices for the best articles. If the pocket will not stand the strain for liquors which range from $4 to $8 per gallon, a few lots can be mentioned from $2 to $2 60. We do no claim that this whisky equals the other, but we are confident of the fact that it is the best in the city for the money. Try a gallon and be convinced that we represent nothing we cannot execute.
